

### **CLASS PROJECT OUTLINE**

- **Presentation of project** - organized, smooth transitions, well-prepared. There are no slide number requirements. Please provide as many slides as you believe will fully explain the topic.
- **Creativity/Originality**- Concepts creatively presented, new ideas well done or old idea with a new twist.
- **Effort**- Obvious effort went into project, not an “over-night-got-to-get-it-done” look.
- **Content**- Meaningful, shows a clear understanding of the concepts, draw meaningful conclusions. Presentation provides complete and current information that fully informs students about the health issue.
  - Describe why you chose this topic of interest
  - Discuss the current health information/research pertaining to your topic.
  - Describe at least one interesting element about your topic that you found when you were researching the information.
  - Three current (in the last 5 years) reference articles that discuss current research/information pertaining to the topic.
  - Reference cited section in APA format. References must be from accurate and reliable sources and should not all be web-based.
