Additional information

Excellent learning. Perseverance, I can work for a long time at the workplace. I bring it to the end, even if it takes a long time. Technical direction of the university gave a wide range of skills, can learn any information a very short time. Art - my forte. I can improvise, to find a new approach to achieve results. I have no experience, but I have a great desire to learn and develop. I want to dedicate themselves to the testing in the future to become a professional in this field. No bad habits
