GUIDE ON HOW TO GET FREE RP

By Odd Fuher on HackForums.net

What is required for this very simple guide;

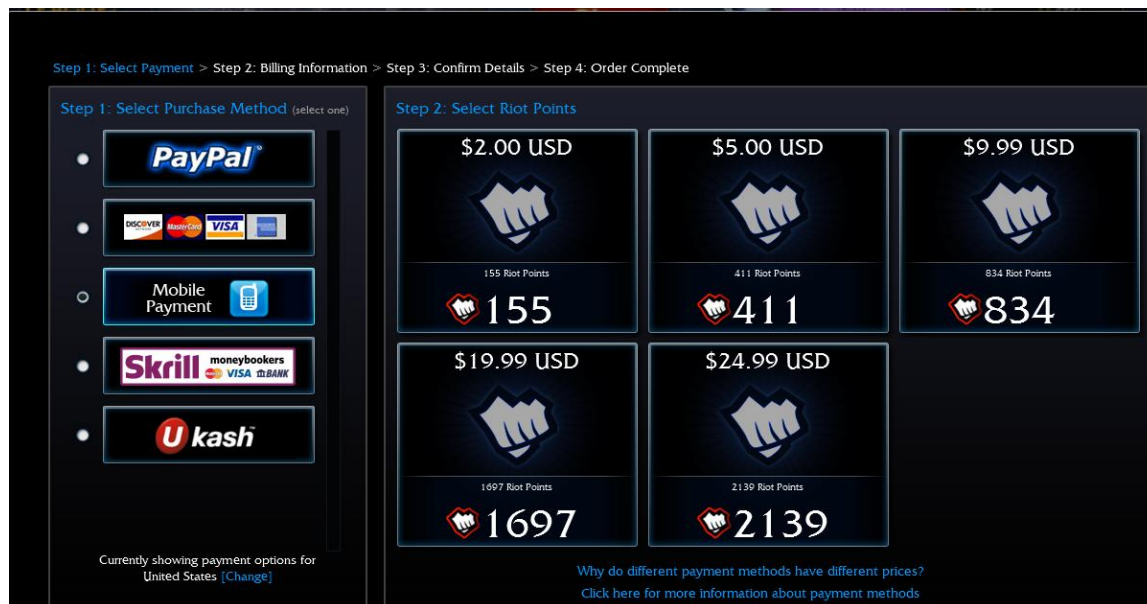

- A mobile phone
- An internet connection
- Very little time
- Few pictures of a girl

What isn't required for this guide;

- Brains

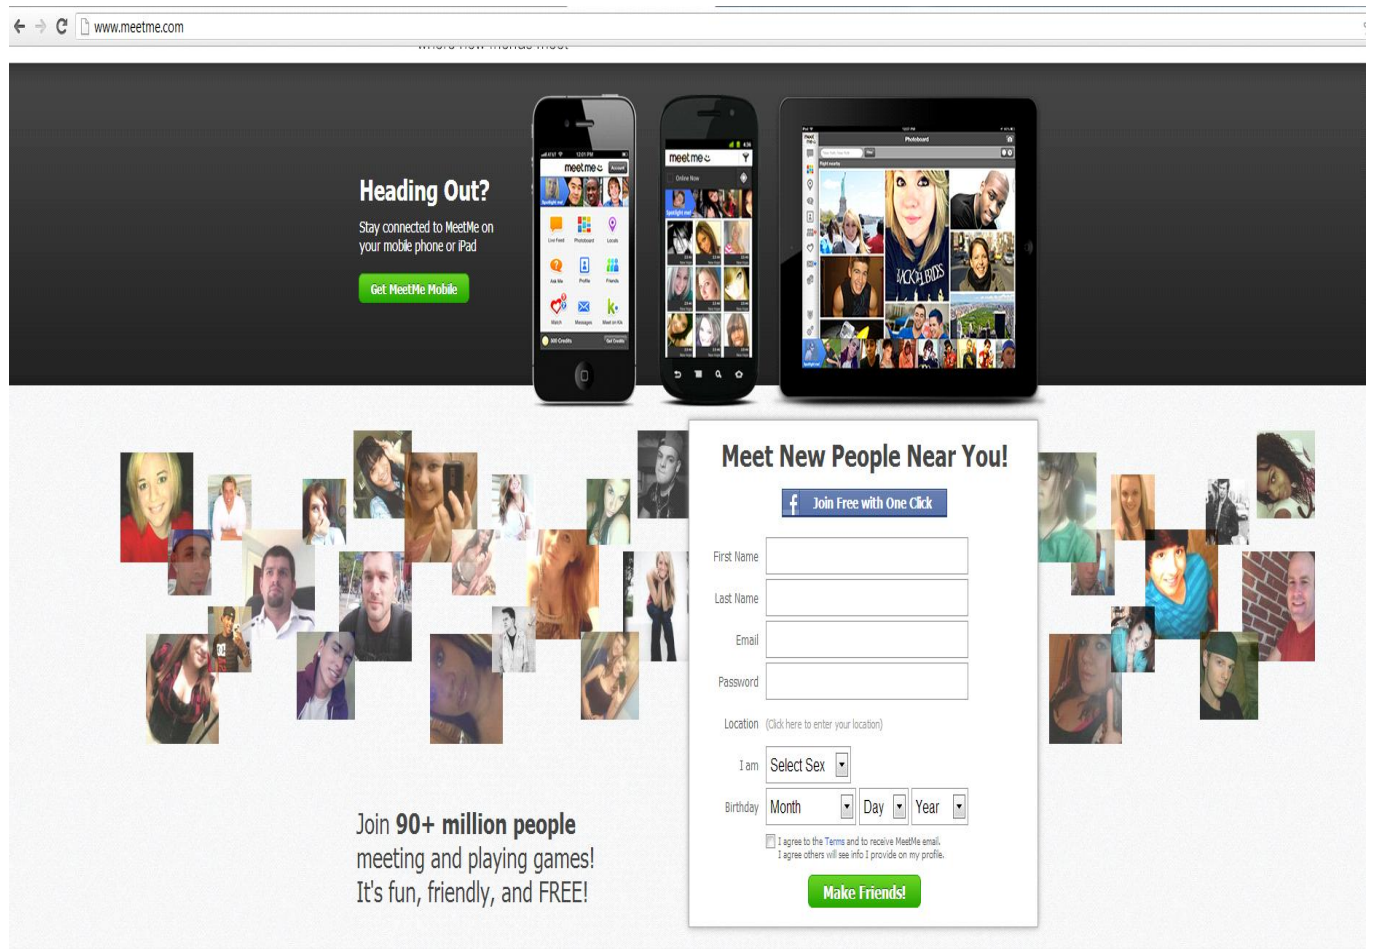

What you need to do to have this method set up; Go to your league of legends client and where it says purchase RP click on it. Then in the bottom left hand corner it says country -> Change that to UNITED STATES no matter what country your in as this method is only

targetting UNITED STATES people. Then click BOKU payment option and the 25\$

STEP 1:

Head over to the website called www.meetme.com - this is the website you'll need to use to get your RP - it is unsaturated and is very easy to use, nearly everyone falls for it here. Please don't make this public, it's for your own benefit ;)

note- register as a girl!

STEP 2:

Registration on meet me takes a couple of seconds just fill out the info under the heading "MEET NEW PEOPLE NEAR YOU" , the email doesn't need to be legit or anything but it's what you use to login. The only important part is providing a legit phone number that will receive a code to verify the account - only one account can be made per number :) After you have verified your account - you're ready to make RP!

note- register as a girl and put your ages something around 1993!

STEP 3:

Okay, now to spice up your profile so it looks legit and people don't report you! Upload a few pictures of the girl you have and add an about me and a few stupid statuses like "oooh just ate potatoes for dinner" or "i love kansas weather" or something dumb - just to make your profile that one bit more realistic!

Just a quick about me you could use - " I'm a 19 year old girl that goes by the name of Alicia ^_^ . i love pokemon and playing guitar! music is my life ._. i'd listen to music all day long :) ehmmm well you might consider me kinda nerdy haha :) pokemon are so cuteeeeeeeeeeeeeeeee " "

You must also add a location to your profile so you get more messages!
Up at the very top of the page press PROFILE

Then in very small writing you will see edit profile;

STEP 4:

You are now ready to get RP - put a sluty status up something along the

lines of this.

This will attract alot of attention and you will be getting messages every minute! Sometimes if you put up too many statuses you get blocked, but after like 5 or 10 minutes you can put up more... but one status is enough, you don't wanna make it look too obvious :)

STEP 5:

People will now inbox you their numbers - you will use this number as an SMS payment where you purchase RP in the league of legends client.

When someone inboxes you their number you have to be like - "damn my antispam won't let me or you send text messages to me, is it ok if i send u a fake txt msg disguised as some stupid purchase with a pin so i can verify you?? it's a fake msg doesn't rlly charge you anything its only there to scare ppl away who used to harass me!! " or sonomething along those lines, be clever, come up with something yourself.

Most people should say OK and you've got your first victim just go onto the BOKU payment press the 2139 riot points for 24.99\$ enter their

number and send!!

Step 1: Select Payment > Step 2: Billing Information > Step 3: Confirm Details > Step 4: Order Complete

IF ASKED FOR A ZIP CODE

If sometimes you enter their phone number and send the TXT using the BOKU payment method it might ask for a zip code... Just make up some stupid excuse saying "Ohh it's asking me for your zip code!!!" or if you look under their profile picture it will say what town/city and state their in... then just google that with zip code after it and click the first link ,it should give you a list of the zip codes.
