AGREED TO THE TERMS STATED ABOVE.**

BYPASSING ESEA CLIENT

TUTORIAL BY AN ANONYMOUS USER
UPDATE VER. 1.0.0 [09/18/13]

INTRODUCTION

Hello, and welcome to this method. This method will explain how to successfully obtain legitimate cheats that will allow you to play on ESEA Client. You will learn how to scramble the cheat, and inject it into the client without being detected.

GETTING READY

STEP 1

Download this [file injector](#) and install it to your computer accordingly

STEP 2

Download and install [this CS:GO cheat](#) (requires registration & purchase of cheat, although a 1 day trial is offered as well on this website) then download [the cheat loader](#) and download and install accordingly

EXECUTION

After you have successfully downloaded and installed the programs mentioned above, you can now proceed with the execution of the cheat.

STEP 1

Open ESEA Client without logging in

STEP 2

Open the hack loader (do not load cheat), then open the injector as an administrator

STEP 3

Once you open the injector, add the *eseaclient.csgo.dll* file to the injector, and select the cheat loader process from the drop down list (will have a long name). Once you do this, go to the *Settings* tab on the injector and make sure *Standard Injection* is selected, then check every other option. The injector will disappear, indicating the injection has occurred smoothly.

STEP 3

Log into ESEA, open CS:GO, then go back to the cheat loader and select the CS:GO cheat and inject it into the game.

CONCLUSION

This is the end of the method. Enjoy.
