

What does this Method do?:

It uses a glitch in the payment system where they give you the account BEFORE they check the Bank Account for money on it. This is **not fraud**, as the bank account will NOT be charged, as it needs confirmation. Therefore, accounts get deleted after 2-5 days, and you may keep repeating this.

Here is a list of WORKING sites and still counting:

The first step is to setup a NETHERLANDS VPN Connection. I have written 3 separate documents for:
