

Did you hear that?

They've shut down the main reactor. We'll be destroyed for sure. This is madness! We're doomed! There'll be no escape for the Princess this time. What's that? Ar-too! Artoo-Detoo, where are you? At last! Where have you been? They're heading in this direction. What are we going to do? We'll be sent to the spice mine of Kessel or smashed into who knows what! Wait a minute, where are you going?

Are they away? They have just made the jump into hyperspace. You're sure the homing beacon is secure aboard their ship? I'm taking an awful risk, Vader. This had better work.

You're safe! We had feared the worst. When we heard about Alderaan, we were afraid that you were...

We don't have time for our sorrows, Commander. The battle station has surely tracked us here. It's the only explanation for the ease of our escape. You must use the information in this R2 unit to plan the attack. It is our only hope.
