

Do Not Distribute!

Furry~

## Introduction:

Hai, my name's Furry~

I'm here to tell you how to get **guaranteed income** from *mining script cryptocurrency*

With this guide you could potentially earn **hundreds** in Bitcoin, easily

## Requirements:

A dedicated GPU (Must not be integrated and not your main GPU)

SGMiner (<https://github.com/veox/sgminer>)

5 Minutes to Setup

## Steps:

1. Register an account at <http://www.betarigs.com/>
2. Click on Lease Your Rig on the top
3. Fill out the required info, such as the name of your miner (Can be anything)
4. For the price, you're going to want to make it say Comparison Price  $\leq$  0.01 BTC/Mh/Day
5. After you do all that, it'll give you a pool URL and an Username with the password of 'password'
6. Setup SGMiner as instructed to by Betarigs
7. Let people order your rig and get good ratings

That's it c:
