Ability	Effect
Archetype Abilities	Enhanced Offense <i>You deal +1 damage with Magical Attacks.</i> Overwhelm <i>When rolling Overcharge dice on any Attack challenge, you may reroll any 1s once, but must take the second roll.</i>
Archetype Effects	Follow Up <i>Upon missing an attack, you may take one point of Overcharge to activate this effect as a Reaction. If you incurred Overcharge for any reason on the missed attack, you may instead activate this ability for free. You may immediately make another attack on the enemy that the first attack failed to hit. This may be a Normal or Multiple Target attack with a bonus of +2 to hit, or an unmodified Finishing Attack. This effect may only be used once per battle</i>
General Effects	Strength From Adversity <i>As long as you are at or under one third of your maximum Resolve (round up), you gain a +1 bonus to Attack challenges and a +1 bonus to any damage you deal. In addition, upon being reduced to 0 Resolve you may activate this ability as a Reaction to immediately make a Normal Attack on any target of your choice.</i>
Finishing Moves	Arcane Prison (Torment Cage: Gaikotsu summons a massive ribcage which encases the enemy and attempts to fuse its spine to the enemy's spine.) <i>Your attack holds your target in place, imprisoning it in a manifestation of your element. If it hits, the target must remain in one place and cannot attack until it can spend a turn to make a TN15 Support challenge to get free.</i>

Backstory

Zugaikotsu Gaikotsu is a soft-spoken girl and doesn't say a lot to people and it doesn't look like she has a lot of friends at Japan High School Where Japanese Schoolgirls Go. Her family is dead and the Japanese social services don't know that she's been living on the streets since she was a very small child. One day she slept in a mausoleum and felt at home there because nobody talked to her, but she saw a guy robbing graves. She went all crazy because of it and had a fucked up hallucination of a skeleton in a jester hat telling her about her untapped powers and to use them on the robber. And then she tried to but the robber was a magic anomaly and disappeared into the night in a cloud of dust and smoke. And then Zugaikotsu Gaikotsu was like "I am a magical girl" and fought evil while fighting to prevent herself becoming evil, because that is not how she rolls. One of her arms is a skeleton but she hides it passively using a tiny bit of magic that doesn't effect her because she is secretly very strong but cannot use all of her powers because she is so cool and mysterious that she would fuck up the whole universe. When she transforms, that magic disappears and you can see her being a half-skeleton girl and she gets super serious and won't even talk a tiny bit not even to strategize, but she will throw bones all over the place and fuck bad dunders up by herself just fine, and it makes her uneasy to be in a team because the threat of losing someone close to her is always pretty apparent. Her best friend is named Shinda Kodomo. She saved him from being hit by a double-decker bus. He is terminally ill and lives in a hospital ward and it is fucked up how sick he is. She visits him every day after school to take care of him and make sure he is ok because he doesn't have parents either and his life is fucked up like her skeleton arm. Gaikotsu's hobbies include reading and not talking to people.
